A hand-drawn sketch of a note-taking interface on a clipboard. The interface is enclosed in a rectangular frame with a clip at the top. At the top of the frame, there is a rounded rectangle containing the URL "Katalog.com/notes/note\_title". Below this, the main content area is divided into two sections. The upper section contains the labels "Title", "Date", and "Note Content" followed by four horizontal wavy lines representing text input. The lower section is titled "Linked Posts" and contains a list of five items, each consisting of a small circle followed by a wavy line. To the right of this list, the text "delete | edit" is written. A diagonal arrow points from the bottom of the "Linked Posts" list to the text "Clickable to go to post." located below the main frame.
